

Artwork Guidelines

Any standard 8.5" x 11" paper may be used, including colored paper.

1. Do not use fabric paints, metallic markers, or glitter. Artwork must be scanned and these mediums do not reproduce well.
2. Artwork cannot contain any 3D elements (puffy paint, pipe cleaners, macaroni, etc.) as these will not scan properly.
3. Bold and colorful artwork reproduces the best. Pencil drawings on white paper can look sparse unless they are very detailed.
4. Artwork smaller than 8.5" x 11" framed on colored paper will produce pleasing results.
5. Artwork may include photographs or other pictures, as long as they are well adhered to the paper.
6. Do not include critical elements or name/signature within 1/4" of paper edge as this could be cropped during production.
7. Have fun and be creative!
